Product description

AIO3WM omni-directional LTE antenna is working in Vertical polarization, it's desired for 2G/3G/4G LTE connections.

The antenna can be used for all popular LTE bands and it covers the frequency range 698-2700 MHz. That antenna is predicted to be installed inside the buildings on the ceiling as the distribution antenna. It's compatible with all Rangeful repeaters and other 2G/3G/4G LTE repeaters, modems and routers.
